

# Language Ambassadors

## TK/K/First Grade

To be a Language Ambassador, you need to do six of the activities in your target language. What language are you learning besides English? That's your target language. Do one activity from each category: learn, interact, create/present. You can also think of your own activity. Just make sure that you are using and learning about your target language when you do it. Try to do one activity a month. Do more if you can! Write down what you do on your log.
