SANTA CRUZ COUNTY OFFICE OF EDUCATION

MANAGER, DATA PROCESSING

DEFINITION
Under general direction, to direct, supervise, plan, and coordinate the activities and operations of the Data Processing Department within the Business Services Division; to coordinate assigned activities with other departments, outside agencies, and the general public; and to provide responsible and complex staff assistance to the Assistant Superintendent of Business.

SUPERVISION EXERCISED
Exercise direct supervision over professional, technical and clerical staff.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES
Coordinate the organization, staffing, and operational activities for the Data Processing Department.

Participate in the development and implementation of goals, objectives, policies, and priorities for the Data Processing Department; identify resource needs; recommend and implement policies and procedures.

Identify opportunities for improving service delivery methods and procedures; review with appropriate management staff; implement improvements.

Select, train, and evaluate assigned personnel; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline and termination procedures.

Direct, coordinate and review the work plan for the Data Processing Department; meet with staff to identify and resolve problems; assign work activities and projects; monitor work flow; review and evaluate work products, methods and procedures.

Participate in the development and administration of the Data Processing Department budget; forecast additional funds needed for staffing, equipment, materials, and supplies; direct the monitoring of and approve expenditures; recommend adjustments as necessary.

Coordinate assigned services and activities with those of other departments and outside agencies and organizations.

Provide staff assistance to the Assistant Superintendent of Business; prepare and present staff reports and other necessary correspondence.

Conduct a variety of organizational studies, investigations, and operational studies; recommend modifications to Data Processing Department programs, policies, and procedures as appropriate.

Design, develop, analyze, code, implement, test, and revise complex data processing programs to ensure proper and effective implementation of new/modified data processing systems.

Prepare and record documentation for data processing programs and operations including data entry procedures and hierarchical diagrams of system flow and operational flow.
EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES (CONTINUED)
Serve as an information source to users, suppliers, and other interested parties regarding County Office data processing systems/programs; provide advice on the feasibility of applying computer techniques to specified operational needs.

Monitor the performance of computer hardware and a variety of peripheral equipment; refer major repairs to the appropriate source.

Serve as a liaison with suppliers, vendors, and user groups regarding data processing system/program requirements, designs, and implementation.

Maintain and supervise the maintenance of security for data processing disks, tapes, and files.

Provide workshops and seminars to train users in new/modified data processing procedures.

Provide computer operations, hardware installation, and maintenance services as necessary.

Attend and participate in professional group meetings; stay abreast of new trends and innovations in the field of data processing.

Respond to and resolve difficult and sensitive inquiries and complaints.

OTHER JOB RELATED DUTIES
Perform related duties and responsibilities as required.
