Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

The Santa Cruz County Office of Education will support the academic and social-emotional growth and achievement of all students. Our program actively engages in needs assessments to find areas of growth specifically through disaggregating student performance data and from directly surveying and talking with our students, families, staff, and community. The School Plan for Student Achievement (SPSA) aligns with continuous improvement efforts including the Local Control Accountability (LCAP) and the Western Association of Schools and Colleges (WASC) plan.

Annual Review

SPSA Year Reviewed: 2020-21

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The 2020 Dashboard did not include essential data such as the graduation rate but during the pandemic, the Santa Cruz County Community School supported potential graduates to the fullest extent. Despite facing incredible challenges Alternative Education graduated 409 students throughout the 20-21 school year which is comparable to the previous year. Our incredible teaching and support staff, including instructional aides, worked to engage and connect with students to help facilitate the completion of needed credits. Our teachers engaged in professional learning and created curriculum resources that supported our students throughout the evolving educational experience that evolved during the 20-21 school year. Our pandemic results from the Star Renaissance show that our student growth percentile in both reading and math went down which can be attributed to many reasons including taking part of the test remotely and interruptions to learning due to the pandemic. Our pre-pandemic growth percentile for reading was 46 and 47 for math. Last year our student reading growth percentile was 45 and math was 39. We are aiming for improvement this year as testing conditions and learning conditions stabilize and improve. The ELPAC was also administered during the 20-21 school year through the tireless efforts of our team.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The pandemic had an impact on all goals and actions and continues to greatly impact educational goals and metrics as we navigate through returning to school and restoring an ideal educational experience for our students. Our goals have adjusted slightly to be aligned to our new LCAP. The Star Renaissance data which was collected mostly remotely shows an even greater need for academic support for all students, especially students with high needs.

Annual Review

SPSA Year Reviewed: 2020-21

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Providing social and emotional supports for our students and access to resources is a major priority for our programs and essential now, more than ever. We have made significant efforts to build our support network of counselors and case managers.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

This year we have expanded this goal to include case management and support for foster and homeless youth.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Due to the pandemic and issues with the remote Healthy Kids survey we adjusted our metric to include results from our local LCAP and continuous improvement survey. By including data from our local survey we can closely monitor the progress of our SPSA goals and our three year LCAP goals to increase counseling support for our students.
