2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

The Santa Cruz County Office of Education (COE) operates a robust Alternative Education department comprising of Court and Community Schools situated around the county. A snapshot of our enrollment on a given day throughout the year tends to hover between 700-800 students with a total of roughly 1,100 to 1,200 students being served annually. The mission of our program is to ensure that every student has access and supports to an educational program that suits their individual needs and aspirations. This is accomplished through a variety of educational models offered throughout the county at our various locations.

Our students enter our programs with their own history and educational experience. We take the time to learn about each student, what has worked in the past, what has not worked and what their goals are. Each student who enters our programs has an intake to get to know our program offerings and for us to learn more about the student. This process helps us transition the student into our programs. The unique needs of the student are also addressed and plans are put into place upon enrollment to connect students with team members to provide appropriate support such as special education services, coordination of foster youth support, services for students experiencing homelessness, counseling, or multilingual program support for English Learners. Students have access to a broad course of study, counseling, food, work-based learning,

employment counseling, language acquisition support as needed, special education services, and an individually tailored academic experience.

We believe that the educational success of our students is dependent upon quality academic and affective programs, which are supported by a healthy organization, our students' families, and effective community partnerships. Our programs are student-centered and adapt to meet individual needs. We value personal and professional development. Staff works collaboratively to facilitate learning and change.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Annually, in September, the Santa Cruz County Office of Education's Governing Board holds a public meeting and passes a resolution regarding the sufficiency of textbooks and instructional materials for Alternative Education programs in English Language Arts, Mathematics, Science, History-Social Science, Foreign Language, Health, and Visual and Performing Arts. To prepare for this, Alternative Education staff inventories texts at all school sites prior to the start of the school year, makes appropriate purchases, and distributes textbooks and instructional materials to each site. At the beginning of the school year, administrators conduct a survey to identify additional textbooks and instructional materials needed by teachers and deliver them from storage. Administrators then visit all sites to visually verify the sufficiency of textbooks and instructional materials in all classrooms. Textbooks and instructional materials are selected by a teacher committee and selections are based on several factors including accessibility, state board approval/recommendation, standards alignment, student engagement elements, and appropriate reading level.

School Facility Conditions and Planned Improvements

Santa Cruz COE The Alternative Education Programs are housed in 18 sites located strategically throughout Santa Cruz county. Sites are leased or are provided in-kind, except for Sequoia Schools, which is owned by the COE. Sites are clean, safe and are maintained by either the Santa Cruz COE or by the partnering agency. A recent facilities inspection found a few minor deficiencies, but they have all been corrected and there are no outstanding work orders at this time. Santa Cruz COE takes great efforts to ensure that all schools are clean, safe, and in "Good Repair." To assist in this effort, Santa Cruz COE Maintenance and Operations staff conducts a facility inspection annually. The goal of the inspection is to (i) assist programs in evaluating their self-audit procedures, (ii) facilitate the identification of conditions which may pose a risk of injury and/or property damage, and (iii) provide recommendations and/or suggestions to help mitigate the risks identified. The results of this inspection are available at the LEA office.

Below is more specific information on the condition of the school sites and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

- **Maintenance and Repair**

Santa Cruz COE maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

- **Cleaning Process and Schedule**

Santa Cruz COE has adopted cleaning standards for all school sites. The Director of Maintenance and Operations works daily with the custodial staff to assign cleaning schedules to ensure clean and safe schools.

- **New School Construction Projects**

Construction of a new school site (Sequoia Schools) was completed during the 2016-17 school year. This school site is the largest Alternative Education program offered by Santa Cruz COE. There is a high school, junior high, independent studies program, personalized learning program, child development center, and Sequoia Academy, all housed at the new Sequoia campus.

Overall, all sites and classrooms were in "Good Repair" and there were no high priority recommendations offered in the inspection report.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

Students are provided an array of services ranging from individual job search and placement assistance, credit analysis and review, exposure to community service activities, guest speakers and field trips, enrollment in on-site Job Search and Work Experience Programs, and assistance with enrollment in post-secondary and other vocational training programs (such as the Career and Technical Education Partnership (CTEP), Adult Education and community college classes). We take students out in the community to facilitate job acquisition and we provide assistance in requesting applications, filling out applications, interviewing and completing new-job paperwork requirements. Once employed, we provide students with comprehensive Work Experience program focused on job retention and success. Teaching staff has received in-service training in integrating the Roadmaps Curriculum into the regular curriculum and provided with materials for use in the classroom. The Santa Cruz County Alternative Education department works in conjunction with community colleges throughout the greater San Francisco Bay Area and our local Cabrillo College to help facilitate the transition from our program to college. In addition, the Santa Cruz COE Alternative Education department works closely with local industry to support students in finding and keeping jobs in our community. Our Work Experience Coordinator and specialists work with our Alternative Education students throughout Santa Cruz County. Students in our programs have access to individualized assistance with their resume, interview preparation, and career exploration.

Teachers at all of our sites tie their curriculum and instruction to college and career themes. At numerous sites, students have the opportunity to engage in Work Based Learning (WBL). WBL is a great opportunity for students to bridge their in-class learning with real world, hands-on activities. Students who participate in WBL or internships have the chance to learn valuable soft skills alongside their peers.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

The Santa Cruz COE Alternative Education department partners with our community to continuously evaluate and improve our programs. We have been extremely grateful to our families, students, and community for continuously engaging in the feedback and planning process. We hold staff, student, and family surveys which also provided an opportunity to discuss the coordination of other pandemic relief funding. In addition to the surveys, we held student focus groups which provided the opportunity for students to engage in a dialogue about their experience through the pandemic and their hopes for the next school year. Throughout the Spring semester, student focus groups were held in person to provide an excellent opportunity to amplify and honor the voices and experiences of our students. Our different parent groups, including our Parent Advisory Committee, DELAC, ELAC, and School Site Council all participated in providing feedback and direction for our programs and these meetings took place in March 2022.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

Santa Cruz COE Alternative Education updates and reviews its School Safety Plan annually. The plan includes a Safe School Vision, a description of the school grounds and the condition of facilities. The plan also provides school rules and regulations as well as strategies and procedures for preventing and dealing with emergency situations.

The Santa Cruz COE Alternative Education Comprehensive School Safety Plan analyzes current school safety conditions, describes programs in place at our schools, and defines strategies and programs for continued improvement in providing a safe, orderly, school environment conducive to learning. The analysis results in two action plans, one pertaining to school physical safety and the other centering on issues connected to maintaining a safe and positive school climate. Appendices follow the action plan. These Appendices include specific, mandated policies and procedures connected to the safety strategies and programs described within the analysis section.

The plan was developed by a safety committee with representation and input from the Santa Cruz COE School Site Council and local law enforcement. The plan was last reviewed and discussed with staff in September 2022 and will be updated prior to March 2023 for the 2022-2023 school year. The safety committee utilizes multiple sources of data to conduct its study of the current state of school safety as it applies to both school climate and the physical environment. Sources used include, but are not limited to:

- Annual Facilities Inspections
- WASC Self-Study
- Student, Teacher, Parent Perception Surveys
- Program Course of Study
- Board Policies
- Healthy Kids Survey
- United Way Community Assessment Project
- Site walk-throughs
- School Site Handbooks
- Student and Staff Interviews

Counseling

The aim of the Santa Cruz COE Alternative Education programs is not only to build academic skills, but also develop life skills, a positive self-concept, appropriate peer relationships, and to help students become productive citizens for the future. Teachers and support staff receive training in the area of conflict resolution and restorative justice. There are social-emotional counselors at all school sites to support students and staff. To increase services, Alternative Education has added additional FTE and contracted with Encompass Youth Services and Children's Behavioral Health.

English Learners

We have a multilingual coordinator who works with the admin team and teachers to support curriculum and instructional needs of our students are met. The Admin team facilitates the ELAC and DELAC, working directly with parents in support of their students' education. Teachers have complete access to our ELD curriculum, and many teachers modify the curriculum to meet the needs of their students. The curriculum is arranged by eight language functions (Making Predictions, Explain and Describe, Sequencing Events, Compare and Contrast, Expressing Opinions, Requesting Information, etc.). Its intention is to engage the student in the use of language structures necessary to complete the focused language function. Staff have been introduced to and are exploring the California EL Roadmap and we send a group of teachers to the countywide Multilingual Network Meetings.

Career/Vocational (Preparedness to Enter Workforce)

Three Work Experience Specialists assist students in finding meaningful employment. Students identify their skills and abilities, learn how to use the Internet, and create resumes and letters of introduction. The California CareerZone is utilized to assist students in identifying career pathways and interests.

Career Technical Education (CTE)

CTE courses are offered to students in all programs. Courses are offered in partnership with the Career and Technical Education Partnership (CTEP) at the Santa Cruz County Office of Education. Some students also participate in weekly internships.

Visual and Performing Arts

Alternative Education Program partners with the William James Arts Education Program to provide a variety of arts programming at each site. Additional partners include the Santa Cruz Arts Council. Classes include: watercolor painting, sculpture, graphic design, mural design and painting, mask making, collage, ceramics, and quilting. In 2020-21, the Santa Cruz COE was awarded one of the state SSAE grants. Part of the mission of the grant was to increase the arts opportunities for our Alternative Education students. We have several programs at various locations in our county.

Physical Education

The Alternative Education Department participates in the Monterey Bay Alternative Athletic League. Over ten schools participate in competitive team sports including volleyball, basketball and softball. In addition to organized sports, students have the opportunity to participate in health and wellness classes, including Yoga and other soft-form martial arts.

Academic Tutoring Services

Alternative Education offers tutoring to students who are performing two or more years below grade level on state tests and local benchmark assessments. Students are able to focus on basic skills and improve their confidence in academic subjects.

2021-22 Types of Services Funded

Restorative Practices and Conflict Resolution

As part of our commitment to providing alternatives to suspension and expulsion, Alternative Education is committed to relying on Restorative Practices and Conflict Resolution Strategies where ever possible. Restorative Practices seek to repair harm and restore relationships between people and communities. Conflict resolution is used as a method to proactively as well as reactively involve stakeholders, such as students in solving problems through non-violent communication.

Professional Development

Alternative Education leadership and staff share a strong collegial bond based on trust and shared commitment to students and each other. Every year begins with a full-day orientation where the superintendent addresses the entire County Office staff. At this time, the administrative team of Alternative Education meets with the entire staff to set the tone for the year and to outline goals regarding student achievement and professional development. Goals are determined based on student achievement data from state tests and local benchmark assessments. Orientation day allows veteran staff members to meet new staff, which begins the process of forging community. At least one other opportunity each year is provided specifically for team building. At the beginning of the year, each staff member also receives a yearlong calendar outlining the focus of each weekly staff meeting and professional development days. In addition to a calendar, a staff handbook is provided that details everything from district policy to classroom procedures, as well as testing dates and evaluation procedures.

Three full days of professional development are offered each school year. Topics depend on current PD focus areas, student and staff needs, as well as on staff interest. Interest and needs are determined by survey data, formal and informal discussions between and among administrators and staff, and by data analysis. Teachers are also encouraged and supported to attend outside professional development conferences and workshops of interest. All new teachers are provided the opportunity to clear their credential through the Santa Cruz/Silicon Valley New Teacher Project, a teacher induction program. SCSVNTP is a two-year program that involves the building of a teacher/mentor relationship and a series of New Teacher seminars designed to meet the California Standards for the Teaching Profession and facilitate development as a skilled teacher. New teachers are also mentored by a veteran teacher from Alternative Education, someone whose experience can help them with everyday operations and systems of classroom management. The mentor also facilitates visits to other alternative education sites to experience instructional strategies and management systems unique to particular alternative education student populations.

During the year, teachers and instructional aides attend weekly staff meetings. Each month, one meeting is focused on all staff, one is focused on collaboration at school sites, one is focused on Collaborative Learning Communities implementation, and in some months an additional meeting is focused on leadership teams and professional learning options. Collaborative Learning Communities (CLC) were developed for teachers to come together to learn about interactive instructional routines and curriculum. With the CLC, teachers have the opportunity to collaborate and compare instructional efforts. There is dedicated time for teachers to come together and evaluate student work, successes and challenges. Although we value our diverse and unique programs we hope that through this instructional emphasis, we can collectively focus on emphasizing effective instruction.

This table displays the number of school days dedicated to staff development and continuous improvement.
